

VALAIS. THE RHÔNE VALLEY.

TREASURES AT EVERY TURN.

Region Alps
official partner

ENGRAVED ON MY HEART.

The plains of Valais.

The plains of Valais are united by powerful bonds, including the river Rhône, the hillside vineyards, and the canton's exceptional heritage. They are another world – a land within a land that is full of contrasts and abounds with riches.

We've put together this new brochure to show you what makes it so special. The brochure aims to provide a source of continuing inspiration, to kindle an irresistible desire to come and visit us here.

Of course, it can't replace the information provided by local tourist offices or a more general introduction to Valais and its exceptional mountains. Instead, it focuses on the touristic offering in the canton's Rhône valley area – one that never fails to deliver.

This brochure is available in French, German and English.

Bilingualism.

Valais has the good fortune of being a bilingual canton – both French and German are spoken here. French is the language of lower and central Valais, while German is spoken in upper Valais to the east of Sierre. In your time here, you may well encounter places whose names are different in the two languages.

If you do, you can use this table to find your bearings again.

French	German
Sion	Sitten
Sierre	Siders
Salquenen	Salgesch
La Souste	Susten
Loèche	Leuk
Tourtemagne	Turtmann
Rarogne	Raron
Viège	Visp
Brigue	Brig

The place names used in this brochure correspond to the language spoken in the locality concerned.

Summer.

With its vast open spaces, mountainous landscapes and unspoilt nature, Valais is a dream playground and a magical setting for outdoor activities. At the heart of its main valley, the Rhône cuts through the canton for more than 140km, offering the opportunity for relaxing walks along its banks as you savour the fresh air and panoramic views.

valais.ch

Excursions.

Whether it's swimming pools, theme parks, wildlife parks, adventure parks, via ferrata, dams, or panoramic railway and gondola excursions, there's no shortage of activities on offer in the Rhône valley. Getting to the summits couldn't be easier either, with access by road or via an extensive public transport network.

Hiking.

The valley is often used as a starting point by hikers looking to escape into the mountains and see Valais from a fresh perspective. On the 8,000km of marked trails, you'll cross suspension bridges, travel along bisse irrigation channels, walk along historic roads, sleep in mountain huts, trek beside glaciers and enjoy much more besides – incredible experiences are part and parcel of hiking in Valais.

Cycling and mountain biking.

Cyclists can enjoy 2,000km of routes on marked trails that pass along the Rhône, among vineyards and up to the canton's dams and mountain passes via side valleys and slopes. MTB and e-bike fans will find what they're looking for too, with no fewer

than 1,500km of official trails in the heart of nature. From valley to summit, a choice of single trails, flow trails, bike parks, pump tracks and skills parks have been created that are sure to delight.

Regional produce.

Valais benefits from an exceptional amount of sunshine, making it a great place to grow all sorts of produce. Whether it's rare spices, wines with subtle aromas, or fruit that's packed with flavour, Valais is a true garden of delicacies that will charm any palate. Embarking on a discovery of the canton's produce means experiencing the ultimate alliance of authenticity and quality. From Valais rye bread AOP made with a strict respect for tradition to saffron harvested like precious gold, Valais gastronomy extracts the very best from what nature has to offer.

valais.ch

Wine.

With more than 5,000 hectares of vineyards, Valais is home to Switzerland's largest winegrowing region. Just under 60 varieties of grape are cultivated at an altitude ranging between 450 and 1,100 metres. The region's Mediterranean climate and calcareous soil produce world-class wines that never fail to tell an amazing story that's charged with emotion. Every tasting becomes a unique sensory experience defined by the friendliness and hospitality Valais cherishes so dearly.

Local delicacies.

The Valais platter is the canton's iconic dish and is great fun to share. Always a star at aperitifs, it combines a range of produce from the canton, including Valais cured meat IGP, Valais cured ham IGP, Valais cured bacon IGP, Valais rye bread AOP, and Valais salami. Raclette is eaten all year round, while seasonal products such as saffron, apricots and asparagus

offer up deliciously intense taste experiences at different points in the year. In addition to the spices, fruit and vegetables that thrive in the sunshine, Valais has a number of other products that encapsulate all the subtleties of the terroir, including liqueurs, cereals, dried fruit, herbal tea and even locally raised perch.
